

## SCORE CARD

We are very grateful to every body actively involved in this benevolent feat and convey our sincere thanks to ALL for this successful achievement. An event like this attains success with meticulous planning, passionate dedication and combined disciplined team efforts only.

What drove our core Team India Club : Empathy for Volunteer bushfire fighters losing their lives while saving others', and genuine concern for their young families left behind. Who does not know about the horrendous bushfires this season in NSW, OLD & SA. We discerned that it is not sufficient only to chat about this calamity, but it is our duty to generate whatever resources we can, to support the Fire Fighting efforts of the RFS, especially for welfare of the Volunteer firies.

The IC-BFA event on 27th January, 2020 held at Pennant Hills Community Centre, firmed up in December when India Club was deliberating to stage a fund raiser for RFS and we were approached by Vinod Rajput

and Neena Badhwar. After an initial discussion meeting, India Club decided to stage the IC-BFA program. The cause being benevolent, the custodians of India Club assumed complete responsibility to coordinate & organise the function, with utmost passion. In usual IC manner, meticulous planning, booking the venue, cleaner and DJ etc was carried out. Vinod Rajput had charge of the musical segments and singers, delivered very well-thanks. Many others were contacted to support the drive with sponsorships, donations, auction items and raffles etc and also the MC and dance segments were organised. The IC then focused on flyer, publicity, inviting guests, program structure, run sheet, booking lists, money accounting, tickets & various printings etc. India Club coordinated, administered and conducted the IC-BFA benevolent function; with a select experienced task force "Team India Club" assembled for the purpose and the volunteers, implementing execution successfully on D-Day.

Strong support, encouragement, generous sponsorships and donations of India Club members, friends and the community, including kids from primary and high school, led to a necessary greater awareness and despite a short lead time produced a substantial respected amount to donate; that we regard a worthy community achievement. Sincere thanks to all involved actively and to all attendees, for their cooperation and enthusiastic support in various forms.
